Summary

At Research Gate, I support the research community and facilitate knowledge sharing as a Computer Professional. I use my IT service management skills to develop and maintain various IT systems and solutions that enable researchers to access, share, and collaborate on scientific information and data. I also apply my analytical skills to troubleshoot and resolve any IT-related issues and ensure optimal performance and user satisfaction.

I joined Research Gate in January 2023, after working for 7 months at AIP Management, where I gained valuable experience and exposure in the IT industry. I am currently pursuing a Computer Science degree at Muthayammal Memorial College of Arts and Science, Rasipuram, where I have acquired teamwork and problem-solving skills that help me work effectively with diverse stakeholders and tackle complex challenges. I am passionate about computer and information sciences and support services, and I aspire to advance my career in this field and learn from the best in the industry.
